RECENT ARRIVALS

We are all familiar with the annual MARKLIN catalogues. Most of us also know - and look for the NEW ITEMS and/or EXPORT RELEASES brochures issued once each year. What most of you are not aware of is that MARKLIN also issues *quarterly bulletins* offering *one-time-only* SPECIAL EDITIONS released during the year (separate from normal catalogue items). Our problems are: (a) we don't generally get enough copies of each issue to send out, (b) even worse, we often get them so late that we miss out all together (most items have order deadlines).

Usually these special releases are eventually shown in the following year's catalogue, but that won't do any of us any good as stocks are usually long gone by then. To partly overcome this problem, we have organised for timely arrival of at least one copy of each brochure and then we have taken a look in our magic mirror and taken a small punt.

Listed below are now some of these special one-time-only releases - stocks are limited and we have little or no chance to get any more at reasonable prices. Don't delay - call us now!

28501	Limited Edition R A G private train set including diesel loco and 3 wagons	DELTA	\$339
28502	Limited Edition R C T Royal Corps of Transportation set including diesel loco, coach, flat car with Rolls Royce car	DELTA	\$434
3412	2-6-2 Tank Wurttemberg T5 in photogrey	DELTA	\$469
34157	2-10-0 Tender SNCF Class 150Y, dark green	DELTA	\$649
34158	2-10-0 Tender CFL Class 56, black	DELTA	\$697
37112	Limited Edition 4-6-2 Tender BR 18.1, black Olympic	DIGITAL	\$997
47121	Double-unit Car transporter with 8 modern Mercedes Benz cars		\$143
47780	USA Boxcar Pacific Fruit Express, dark orange		\$ 62
47891	DB 1950's freight wagon set (5 wagons in superb detail)		\$269

.... and what surely must be the best MARKLIN BUY of all:

29605	Advanced STARTER SET in DELTA a \$1300+ value for only \$669
	2-8-2 Tender DB Class 41 loco (3392 with DELTA clip)
	32VA transformer (new version), 6 freight wagons (not cheapies) large oval with turnouts all in the new C track

Remember: DELTA locos run on all Marklin layouts (standard, Delta & Digital)
So in fact, this set suits every one.

C - TRACK IS HERE

NOW IN STOCK. After over 40 years Marklin has finally come out with a replacement for the now somewhat aged M track. The totally new track is called C-Track. It looks great. It is made with a raised plastic track bed; it is fully compatible with K and M track (via transition pieces); its modular design allows you to easily fit motors, decoders, etc out-of-sight underneath. CALL

1994	Brewery Boxcar with truck	\$ 99
1995	Tanker with truck	\$ 89

DIGITAL

DELTA

Too costly
Too complex
Who wants it
Who needs it

How much do you really know about it? Don't be afraid to ask. You might really be missing out on a much better way to run your trains.

Did you know that we can get you started into DELTA and/or DIGITAL for less than you think.

For example (assuming you already have one or more 30VA transformers) we can convert 2 of your locos and supply you with a 6604 DELTA control all for just \$400....and now you are into DELTA.

Want to get into DIGITAL cheap, well we can help you there too. Take your 30VA transformer, link it to a 6022 DIGITAL control unit (Cost \$375 from us) and we will convert any number of your locos either to DIGITAL (at \$160 each) or DELTA (at \$110 each). And now you are into DIGITAL!

Or we can help you now with 2nd Hand DIGITAL controls, decoders, locos, etc. Yes, we have 'em. Still sounds difficult to you? Why not give us a call:
