

Dear Marklin modeller/collector,

THE List promised months ago is finally ready - just in time for Christmas - wouldn't you know! Many a long day and night was spent sorting through literally garages full of Marklin goodies (I bet many of you would have liked to join in on this exercise). Then came the task of identifying, cataloging, and listing what we really have. It was almost too much!

As mentioned in my last mailer, we acquired not one, but two enormous collections/hoardings of Marklin stock (a) one lot of new stock from a hobby shop which had been closed down years ago (included the owners own collection), and (b) one lot from an avid collector who had just about every item from 1950 onwards (not once, but often several versions of each). After one flight and 3 car trips to Victoria everything is finally here and *ready for new owners*.

There are Collectables, hard to find Export and Limited editions, lots of out-of-production items, unusual versions *You name it - we most likely have it.*

A few points to keep in mind. Most of the stock listed in this mailer is in NEW/unused or MINT condition unless indicated otherwise. In addition, we have probably as much (or more) again unboxed and in similar condition or slightly less. Then again we also have lots and lots of just good condition stuff.

Just because you can't find a particular item anywhere in this list doesn't mean we don't have it. Give us a call or fax us and we promise we will get back to you. For example, we were going to list all our freight wagons, but that would have doubled the size of this mailer. It's easier to tell you that we have just about every version of every freight wagon boxed and/or unboxed made since 1948 and in every condition from NEW - excellent - good to fair.

We gladly do **MAIL ORDERS** and **LAY-BYS** (20% deposit, length up to 3 months). We accept most credit cards including **AMEX - BANKCARD - MASTERCARD - VISA**. We also accept postal money orders, personal checks and good old-fashioned **CASH**.

K - TRACK (2200 series)

NOTE: We always carry the complete range of K track NEW. Occasionally we also have some good 2nd hand track for sale. Typically our 2nd hand prices are 40-50% below Rec Retail. *Just because an item isn't listed here doesn't mean we don't have it.* ASK

#	DESCRIPTION	Rec RETAIL	SALE USED
Short pieces:	2202 2203 2204 2224 2234 2235 2293	4.50- 5.25	\$ 2.70

2295	Contact track kit	\$29.75	\$19.00

K - TRACK (2100 series)

Note: This track is similar to 2200 series, only prefix is 21 instead of 22, also rails are hollow - "They look identical to 2200 series" - are certainly *better in appearance than M track and represent a good buy.*

RARE - Hard to find - COLLECTIBLES

We have a wide range of hard-to-find and/or unusual locos in different versions, varying in condition & with or without boxes. Where we only have one loco, we are giving full details. Where we have more than one loco an variations in version and/or condition, we are showing 'from pricing'. In many instances we can offer the loco with/without a box (in the case of red and 'early' blue boxes this can mean a price differential of 10-20%).

If you are familiar with 'Koll pricing' we remind you that his valuations are net prices, giving an average over the last 12 months. Most importantly his valuations on older items are for the item on its own (*without original box*) nor does he add in the typical extra charges for GST & auction fees (an additional 20-25%).

The # after the full stop indicates the 'Koll version' of the particular model. Example F800.2 - the 2 after the dot indicates the second release of this model - in this case the loco now comes fitted with tyres.

Unless otherwise indicated, locos are black, have all-metal bodies and red wheels. In Cond column 'rest' means professionally restored to 'near new' and all parts are original.

BARGAIN BASEMENT - Locomotives for everyday / regular use - from \$35 to \$145

We always have a good selection of *orphans* (well-used pre-loved locomotives and rolling stock) looking for a new home. They may not be boxed and have a few scratches on them, but they are complete and have plenty of life left. They are good runners for every-day use or for the kids.

Steam Locomotives: 3000, 3003, 3005, 3029, 3031/3032, 3048, 3087, 3090, 3095
 E-Locomotives: 3034, 3035, 3037, 3039, 3044, 3051, 3054
 Diesels: 3021, 3060, 3064, 3065, 3072, 3074, 3075, 3078, 3080, 3088, 3146
 Railcars: 3016, 3076, 3028, 3150 (sorry, no - just testing you)

Coaches: 2 axle goodies \$12-25
 bogie coaches \$25-45

SPECIAL(1 only) 4228 Rheingold set, complete/unboxed, everything still working, some marks, only \$295
 that's less than \$60 per coach with interior lighting (RR is \$982!)

Freight wagons: You name it, we have it: Good ones from \$12 - \$45; collectables a bit more.

Give us some criteria and a budget and we will put together a **SURPRISE SET** (freight or coaches) and we will include a special bonus present. How's that? How can you loose?

TINPLATE GOODS WAGONS

All wagons are *not boxed*. Condition rating is from 1 to 5 as follows: 1=New/Mint, 1.5-2=exc, 2-2.5=vg 3=good, 4=fair, 5=poor (scrapped). Values such as .4 or .9 means the item is improvable to next level

#	DESCRIPTION	Years	Cond	PRICE
361G.3	LONG-LOG wagon (2x2 axle wagons) with cut wood, brakeshoes	1952-57	1.9	\$75

COACHES - TINPLATE & Rare

The coaches listed below are very rare in Mint condition/boxed. As such they command relatively high prices (we only have a few of each). However, we also have the same coaches in "lesser" condition (from excellent to good to fair) and unboxed at more reasonable prices.

New #	Old #	DESCRIPTION	Years mfr	Version/Box	PRICE
✓ 4006	346/1	Express coach (with <i>skirts</i>), 2nd Class, dark green	1951-57	various	Call

4078		DB Dining car, 1st Class, red/blue <i>Kokadu</i>	1968-75	mint/boxed	\$165

NOTE: Coaches 4006 to 4014 are Marklin classics manufactured in the early 50s. Boxed/mint condition units have recently become the favorites amongst collectors thus driving up prices enormously in the last few years. As shown above we have some Mint condition/boxed coaches for sale, but we also have lots of coaches in just good to better-than-good condition(however unboxed). Unfortunately the boxes did not survive the times.

Why don't you let us put together a typical 4 or 5 coach set (from 4006-4014). We promise we'll put together a real *value pack* for around \$250 to \$400. They are a great buy and they look good too.

RAILCARS

All railcars are boxed and NEW/unused (in white boxes) or MINT condition (in blue boxes)

#	DESCRIPTION	(Years/box/RR)	PRICE
