

## Model Railroad Track Layout code name “MAASVLAKTE”

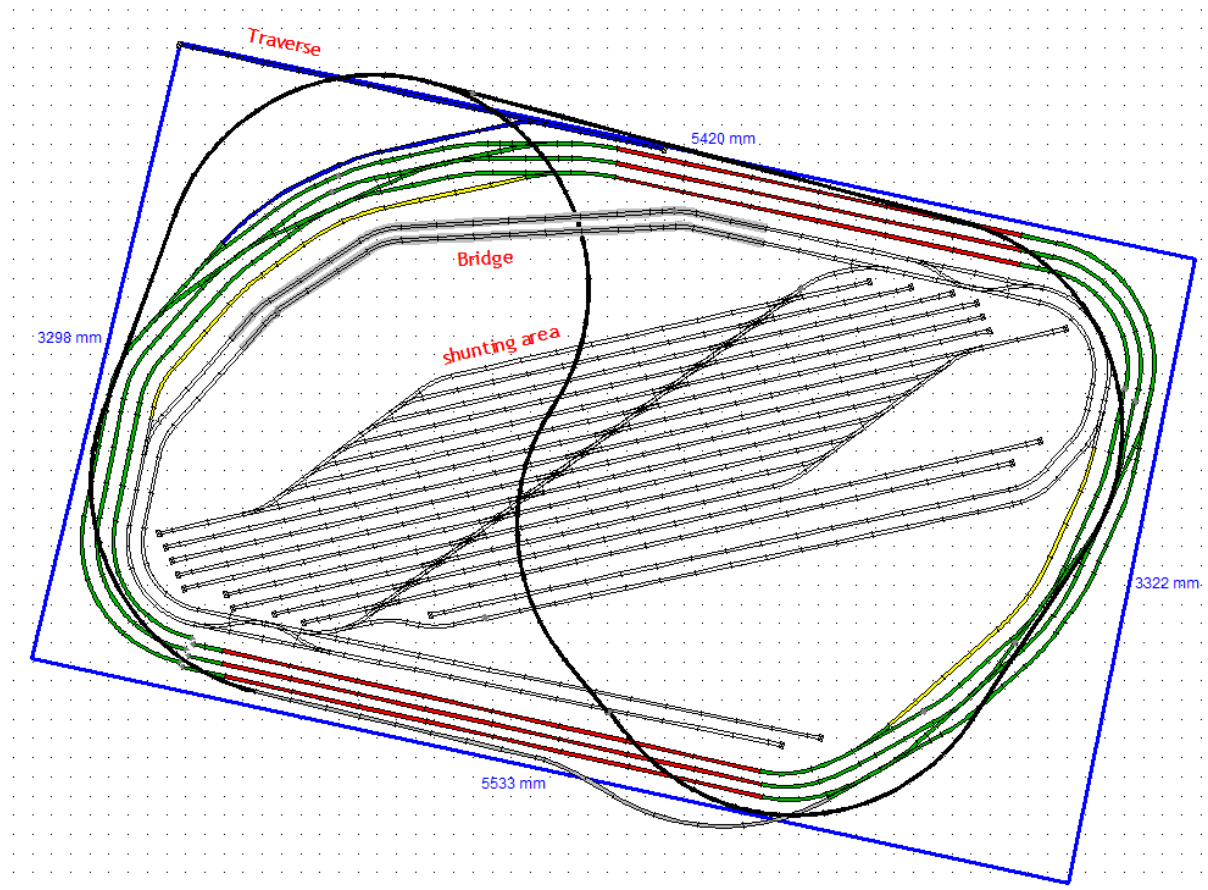

Sketch 1: Track layout

The upper left corner is final and will be mirrored to the lower right corner. The shunting area and the bridge configuration is not final yet.

Sketch 2: Track layout with mirror line.

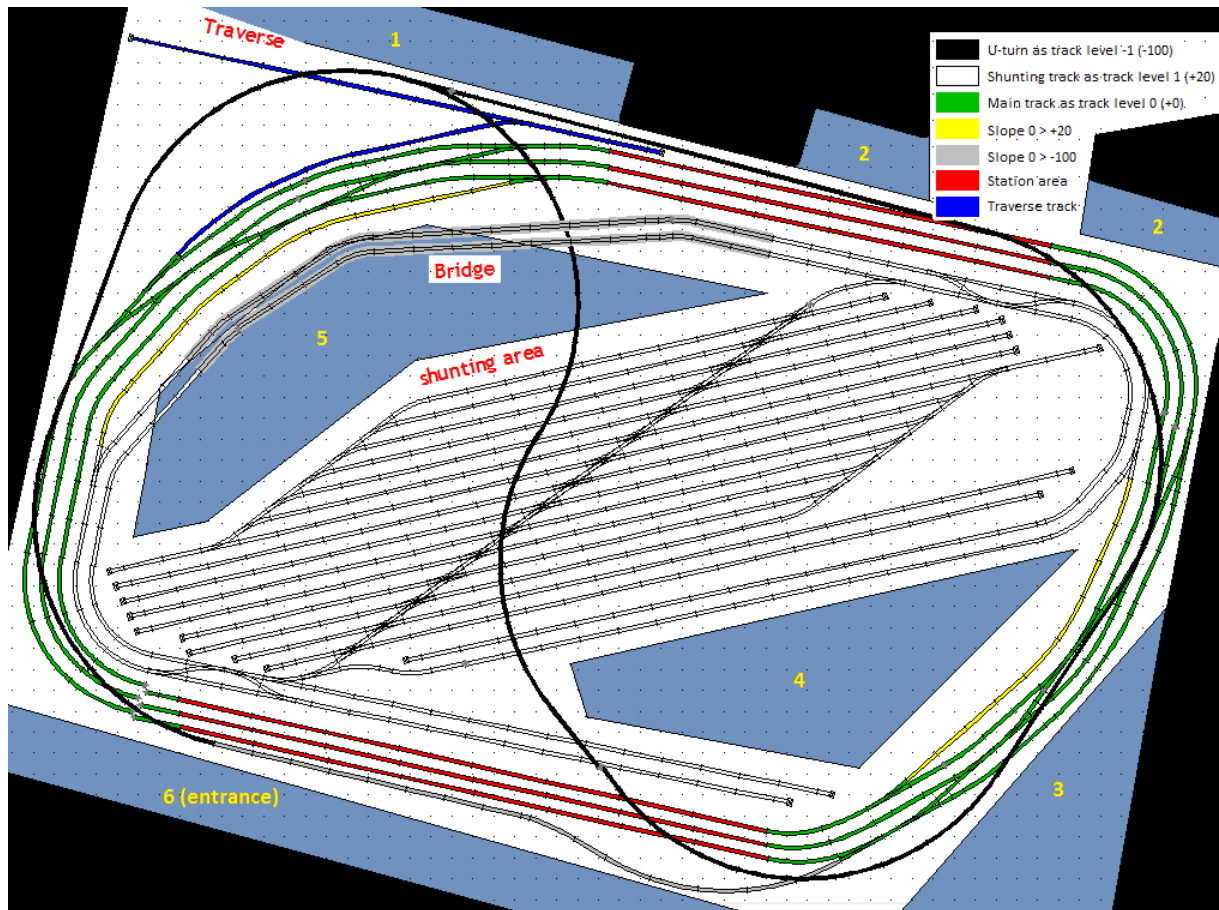

The main track will be symmetric and the inner tracks from the shunting area will be non-symmetric over the mirror axis.

Sketch 3: Track layout with prox. table dimensions.

The final table dimensions is limited to 3 x 5 m.

The layout is fitted in the room by turning the layout and extra corner corrections at the sharp corners on the lower left and upper right (diamond shape).

Sketch 4: Track layout with table and floor surfaces.

The white area is the table and the blue areas are the accessible floor locations for the operator
